# EUROVAC

# EUROVAC I – INDUSTRIAL PORTABLE

## Powerful Regenerative Blower

Ideal for orbital sanding, grinding, welding or housekeeping applications.

## Long lasting - Low Maintenance

The regenerative blower has a T.E.F.C. Induction motor rated for 20,000 hours, which outlasts brush motors found in most portables. Regenerative motors require little or no maintenance.

## Superior Filtration

Cyclonic filtration removes 99% of dust before the secondary filter. This results in the unit operating much more efficiently than units which do not have cyclonic filtration. The remaining 1% of dust is removed by a secondary cartridge filter which cleaned by compressed air pulse jet cleaning action.

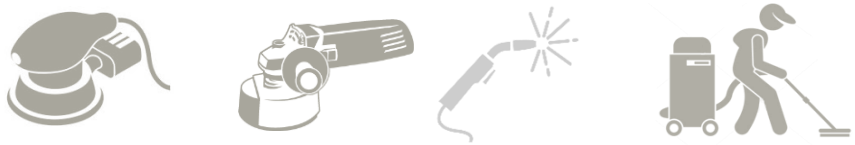
## HEPA Filtration

HEPA filtration is available by adding a filter between the pump and the cartridge filters. HEPA filters remove any remaining particles to 99.97% at .3 microns or larger.

## Technical Data:

| Model Number | EIP-P02 - 18148002 | EIP-P05- 18144002 | EIP-P10- 18144002 |
|---|---|---|---|
| Horse Power | 5 HP | 10 HP | 15 HP |
| Voltage | 208,240,460, 575 | 208,240,460, 575 | 208,240,460, 575 |
| Power | 3 PH 60 Hz | 3 PH 60 Hz | 3 PH 60 Hz |
| Airflow (max.) | 212 CFM | 340 CFM | 668 CFM |
| Pressure (max.) | 108" WC | 124" WC | 108" WC |
| Sound Level @ 10' | 78 dB(A) | 79 dB(A) | 79 dB(A) |
| Collection Capacity | 20 gallons | 20 gallons | 30 gallons |
| Filter Area | 42 $ft^2$ | 42 $ft^2$ | 100 $ft^2$ |
| Filter Efficiency | 99.93% @ 3 microns or larger | | |
| HEPA (opt.) | 99.97% @ 0.3 microns | | |

## Applications:



Sanding | Grinding | Welding | Housekeeping
